Situation 3

Michael walked to the corner store with his sister and her friend after dinner one night to get ice cream. When he returned home a half hour later, he saw that he had several missed calls and a few text messages, including one that said, "Are you cheating on me?" from his girlfriend Cindy.

Even when it is difficult, it's really important to trust your partner and not assume the worst when they don't respond to text messages or phone calls right away.

What concerns would each of the following have:

Michael

Cindy

Michael's friends and family
